

WHAT'S NEW IN SMARTCARE

Release Notes: April 2023 Part 2

What's New:

Note: iOS and Android releases may occur several days after publication of release notes due to required Apple and Google reviews of applications in their stores.

New Feature 1: Smartcare and preschool2me improved sync experience

Customers seeking to utilize both the center management functionality of Smartcare with the classroom management functionality of preschool2me can use an updated version of the sync for the two applications that offers a more seamless user experience of administrators, teachers, and parents.

Notes:

- A user guide is available [HERE](#)
- Existing Smartcare and preschool2me synced customers can request that they be converted to the new sync by contacting customer support through the Smartcare Admin application help function or by emailing support@smartcare.com
- Those customers using Smartcare and preschool2me **but not syncing** will lose data in preschool2me if they convert to a synced experience
- This updated sync will be the default setting for new customers enabling the sync
